

HUỖNH THIÊN BẢO

SOFTWARE ENGINEERING STUDENT

 0898157294

 huynhthienbao294294@gmail.com

 [Huỳnh Bảo](#)

 Bình Thạnh, Hồ Chí Minh city

SOFT SKILLS

- Collaborative
- Time Management & Organization
- Networking & Interpersonal Skills
- Fast Learner/Adaptability
- Time Management

PERSONAL TRAITS

- Eager to Learn
- Sociable & Approachable
- Supportive
- Highly Energetic
- Highly Intuitive

LANGUAGES

- English: Basic communication and reading technical documents
- Vietnamese

EDUCATION

FPT University (10/2023–now)

- Software Engineering – GPA 7/10

About Me

Software Engineering student at FPT University specializing in backend development with Java & Spring Boot ecosystem. Experienced in building RESTful APIs. Seeking a Intern Backend Developer role to apply technical skills in system design, database optimization.

HARD SKILLS

- Programming: Java Core, Servlet/JSP, Spring Boot
- Backend Development: RESTful API, MVC, Layered Architecture, DTO
- FrontEnd: React JS
- Database: MS SQL Server, Postgre SQL
- Tools: Postman, Swagger, Git/GitHub, IntelliJ IDEA
- Basic Knowledge: Software Development Process, System Analysis, Software Testing, AI/RAG Concepts

PROJECTS

Train Ticket Office System

Role: Backend Developer / Implementation Support

Technologies: Java 17, Spring Boot, Spring Data JPA, MySQL

- Developed a train ticket booking system and supported key business flows.
- Tested main functions and main flow to ensure the system worked correctly.
- Practiced understanding user requirements and converting them into software features for implementation.

SmartNote AI / Velora

Role: Backend Developer / AI Integration Support

Technologies: Spring Boot, SQL Server, FastAPI, ChromaDB, RAG, React JS

- Built a smart note-taking system that supports notes, document upload, and AI-based Q&A.
- Integrated backend APIs with AI service for document search and chatbot features.
- Supported feature analysis, API testing, and project documentation.
